

**Oregon-Columbia Chapter of the
National Electrical Contractors Association**

Presents

Advanced Estimating Of Electrical Construction

July 27-28, 2009

8:00 am – 4:30 pm each day
Oregon-Columbia Chapter Office
601 N.E. Everett Street
Portland, OR 97232
(503) 233-5787

Registration Fee: \$555 Chapter Members - \$630 non-Chapter Members

This course is designed to assist participants in all phases of the estimating process, beginning with identifying desirable bid opportunities in conjunction with analyzing the company's capabilities to ensure profitable results. The course covers all phases of preparing a competitive bid, including the many-times-ignored hidden costs in the bid documents. The course material includes NECA's Productivity Studies. These recently revised studies quantify the impact of adverse working conditions on electrical constructors, and will be used during the course to solve real life case studies. This course is designed to increase the estimator's confidence and efficiency while improving the company's profitability.

(Deadline to Register: July 13, 2009)
