

District Six Labor Relations Task Force

District Six NECA Council Members (Washington, Oregon & Alaska) created a District Six Labor Relations Task Force in August 2009 for the purpose of discussing Labor Relations issues. We have met several times as needed.

At our August 2010 District Six Summer Conference in Sunriver, OR the District Six Council called another Task Force meeting which will be held on September 10th at the Tacoma NECA Chapter Office.

We will be discussing what NECA Contractors believe it will take to secure work.

The IBEW has created the ***IBEW MARKET ADVANCEMENT INITIATIVE*** as a viable source to create more work. Many Contractors believe it will work for a limited amount of Contractors and that we need to do something far more reaching for the entire group.

At our District Six Council Meeting it was apparent that NECA Contractors believe they could collectively come up with a plan that would work. Each Chapter was directed to secure ideas from their members and all of the ideas would be discussed at the Task Force Meeting.

Please share your ideas ASAP so the Chapter can take a combined list of ideas to share on September 10th.

At our September 14th General Membership Meeting we will address the outcome of the Task Force Meeting in our Business Session. This meeting will allow us to discuss and plan our future goals.

Please email ideas you would like to share at caustin@necacascade.org
